

The purpose of this correspondence is to appeal to all members to not support the Aid-in-Dying Bill being proposed. This Bill goes against the very fiber of humanity. Death is the natural progression of the life cycle as ordained by God. We do not have the right to take this into our own hands. It is wrong on so many levels and further diminishes respect for life in this country.

We implore you to deny support of this Bill.

Respectfully,

James and Julia Griffin
Enfield, CT
